DIPLOMATIC ADVICES

The Hashemite Kingdom of Jordan, a pole of stability in a region plagued by crises, is not, however, immune to unrest, particularly the risk of terrorism. Jordan is under constant threat of terrorist attacks. This threat is taken into account by the Jordanian authorities who continue to mobilize to prevent the risk of terrorism or infiltration at the borders.

Advices

- Discretion, including clothing, must be exercised in the vicinity of mosques, especially during gatherings for Friday prayers.
- It is preferable to avoid any distinctive sign allowing to be identified as French (flags, French logos on vehicles, clothing, etc.).
- It is recommended that women do not travel alone and preferably during the day, and that they dress conservatively in public. In general, bare shoulders, shorts and skirts should be avoided.

Vigilance area

- Border between Jordan and Syria.
- Border between Jordan and Iraq.
- Sinai Peninsula (Egypt) from Jordan.
